

Environmental Horticulture

Evan Kassoy

Submitted by Mike Gonella

Evan Kassoy is an exemplary and hardworking student, quietly obtaining three A.S degrees (Drafting/CAD, Construction, and Horticulture) and two certificates over the last 4 years at SBCC. Although he is clearly very sharp, receiving top grades on almost all assignments in every class, as well as ambitious, he has excelled in classes with a humble, easy-going, calm and collaborative attitude that has made him an excellent addition to classes and a favorite member for group projects. The well-rounded skill set he has amassed, along with his excellent people-skills indicate a future successful career. In addition, his interests and skills in restoration, sustainable construction and fire-scaping belie his desire to also help his local community through his professional work.
